

# UNIVERSAL TRADING CO

## CONNECTING EXCELLENCE

## COMPANY PROFILE

**KEY INFORMATION:**

Company Name: Universal Trading Co

Establishment: 1996

Company Location: A 40 BLOCK R NORTH NAZIMABAD KARACHI

Sub Office: OFF#107 DILKUSHAN CHAMBER PLAZA QUARTER KARACHI

Company Contacts:

TEL 021-36616629

Email [info@universaltradings.com](mailto:info@universaltradings.com)

Web site [www.universaltradings.com](http://www.universaltradings.com)

NTN# 0709111-7

Member Karachi Chamber of Commerce & Industries: 99218

Key Executives: Syed Hussain Imam Naqvi – Proprietor

Business Scope: Traders of Electrical, Mechanical and Hardware products

Number of Employees: 10

Annual Turnover: PKR 50 Million

Bank Account:

- Meezan Bank
- Habib Metropolitan Bank

# UNIVERSAL TRADING CO

UNIVERSAL TRADING COMPANY, the name justifies our activities – A company with Trading Activities in various parts of the world with head office in Pakistan. Incorporated in the year 1996. The Organization Universal Trading Co is founded on the idea that maintaining satisfied customers is essential to the financial health of the organization. With this in mind, our objective is to work hard to ensure that all of our customer's expectations are exceeded in all aspects and functions.

Universal Trading Company is a consistent leader offering diversified range of products from:

## Products

1. Valves
2. Pipes
3. All kinds of Bearings
4. Pumps and Motors
5. Process Instrumentations
6. Tyres
7. Filtration Solutions
8. Automation Systems
9. Fluid Connectors and Seals
10. Industrial Hydraulics
11. Industrial Tools

## Services

As far as services are concern we proudly holds the best teams consist of educated, motivated and highly skilled members available and ready to serve our customers 24×7 in various departments such as

1. Machinery maintenance
2. After Sales Support
3. Intending/Import Partner
4. Parts replacement

### Major Imports from

1. Russia
2. Singapore
3. UAE
4. China
5. Germany
6. Romania

### Major Customers

1. Pakistan Steel Mills
2. Peoples Steel Mills
3. Value Additions PVT LTD
4. Reliance Textile and Industries
5. Multinational Export Bureau
6. Textile Channel
7. Energy Solutions PVT LTD

The diversified range of products show that we do come up to the expectations and promises to our customers and the business is growing every day. We keep up with the international quality requirements (having experienced and qualified QCR dep.).

We have good terms with the international market and reputation that helps us to source different products from different part of the world. We connect your dreams to reality.

CEO: Syed Hussain Imam Naqvi

## KEY PRODUCTS

### VALVES

Deals in below types of Valves

- Ball Valve
- Gate Valve
- Check Valve
- Globe Valve
- Butterfly Valve
- Plug Valve

# PIPES

Our company provides the most modern and advanced technologies in the production of coiled tubing pipes in strict accordance with the requirements of API 5Lx42 PSL1, PSL 2, API Q1 and API 5ST

We strive for high standards of work and achievement of maximum results aimed at satisfying the needs of our customers, which is possible due to the professionalism of our employees and their technical competence

Importer of various diameter pipes from many destinations all around the world. We can import up to 20mm thickness and 2100mm inner diameter spiral welded.

We also deal in Hot Rolled Coils. We are specialized in importing electric welded pipes from Russia.

## Industries We Serve

- Oil and Gas
- Municipal Water Supply
- Sewage Supplies

## Import Pipes from

- Russia
- CIS
- China
- UAE

## Types of Pipes

- SSAW Pipe
- LSAW Pipe
- ERW Pipe
- SMLS Pipe
- 3pe Coating Pipes
- Casing Pipes
- Galvanized Steel Pipe

# BEARINGS

Universal Trading Company is a consistent leader offering diversified range of Bearings for Pakistan industries

1. Deep Groove Ball Bearings
2. Taper Roller Bearings
3. Spherical Roller Bearings
4. Spherical Thrust Roller Bearings
5. Spherical Ball Bearings
6. Angular Contact Bearings
7. Cylindrical Bearings
8. Thrust Ball Bearings
9. Thrust Roller Bearings
10. Insert Bearings
11. Needle Roller Bearings
12. Bearing Housings of all Kinds
13. Rod Ends

We deals in all range of bearings used in industry of Pakistan. We are known for our quality products and agile services since 1996. We are stockiest of famous bearing brands such as SKF, FAG, NTN, NSK, NACHI and KOYO.

SKF

FAG

NTN

NSK

IKO

INA BEARING NEEDLE

We also have large variety of China origin high quality products. We are Sole agent or dealer of following brands

1. UT
2. WERB
3. FKD

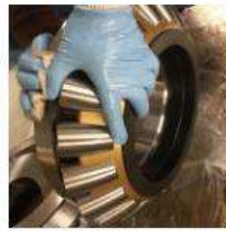

DEEP GROOVE BALL BEARING

SELF-ALIGNING BALL BEARING

TAPER ROLLER BEARING

SPHERICAL ROLLER THRUST BEARING

THRUST BALL BEARINGS

THRUST ROLLER BEARING

CYLINDRICAL ROLLER BEARING

NEEDLE ROLLER BEARINGS

## 1. SKF BEARINGS

SKF provides the best quality bearings in the business so far. We have variety of SKF products available in our stock ready to serve our customers with best quality bearings.

## 2. FAG BEARINGS

FAG Bearings (part of the Schaeffler Group) offers a broad range of bearing products, among the most comprehensive in the rolling bearing industry. FAG Bearings can supply products for applications in around 60 industrial sectors and numerous automotive applications as well as a variety of special solutions with which complex tasks involving bearings can be managed reliably and economically.

### 3. NTN BEARING

NTN manufacture and supply the most comprehensive range of bearings, constant velocity joints, and other precision industrial and automotive equipment to meet a variety of applications, across a variety of industries. As the world's third largest bearing manufacturer, they have over 75 plants worldwide.

### 4. NSK BEARINGS

NSK products are setting new standards for reliability, energy efficiency and durability. NSK offer almost all types of bearings, including deep-groove ball bearings, spherical & cylindrical roller bearings and super-precision bearings. In addition, we also develop and produce mounted units, linear guides, ball screws, wheel bearing units and steering systems

### 5. INA BEARINGS

All over the world, the Schaeffler Group's INA® brand stands for the development and manufacture of rolling bearings, plain bearings, and linear guides for machine building and engine components for the automotive industry.

# RUSSIAN TYRES

Importers of Russian/ CIS Agricultural and heavy earth moving equipment tires from 7 different tyre plants from Russian, Ukraine and Belarus.

Russian tires are more durable than any Japanese, Korean and Chinese tyres.

## Major Suppliers

- Belarus Tyre Plant
- Yaroslaval Tyre Plant
- Moscow Tyre Plant
- Dnepetrovsky Tyre plant
- Volsjky Tyre plant
- Niznekamsk Tyre plan

## PUMPS AND PUMPING SOLUTIONS

We have variety of Centrifugal Pumps and Pumping equipment in solutions.

We import Pumps from below mentioned countries

- Russia
- Western Europe
- Korea
- UAE

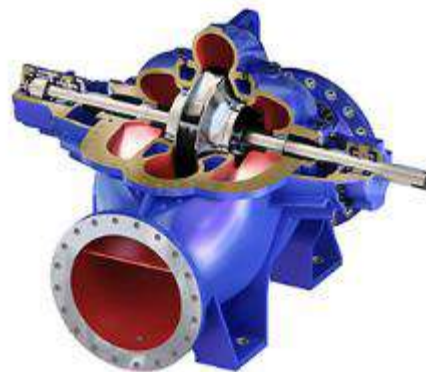

### **Centrifugal Pumps**

- End-suction pumps
- High-pressure pumps
- Medium-consistency pumps
- Multi-stage axial split case pumps
- Self-priming pumps
- Sewage pumps, dry
- Sewage pumps, wet
- Single Stage Split case pumps
- Submersible pumps
- Vertical line shaft pumps
- Vertical submerged pumps
- Vertical volute pumps

### Industries We Serve

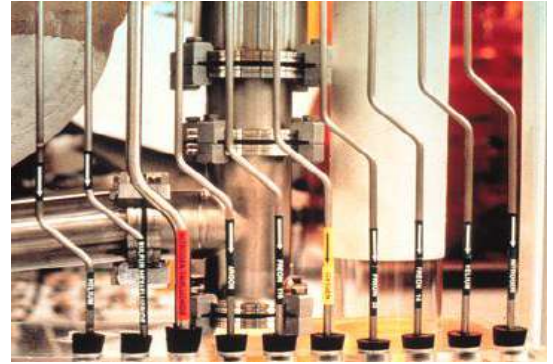

- Construction (building and civil engineering)
- A small plant
- Fertilizers
- Plastic bottles
- Food and beverages
- Mining and metals
- Oil, gas and chemicals
- Polymer
- Wind turbines
- Power generation
- Pulp, paper and board
- Transportation (automotive, marine, rail, air)
- Water and wastewater

**CENTRIFUGAL PUMPS SINGLE STAGE AXIALLY SPLIT BB1**

## Process Instrumentation Tubes

- Seamless Tubes for Hydraulic instrumentation systems in straight length and coil form
- Materials available in SS 316L/904/SS 316 Ti, 6 Mo, Duplex and other exotic materials in famous brand Parker

- The Parker Supercase single ferrule provides a strong mechanical and vibration hold on the tube
- Molybdenum disulfide coated nut with fine pitch threads ensure no galling.

## A-Lok Fittings

- The Parker Supercase double ferrule provides a strong mechanical and vibration hold on tube
- Parker's high quality silver nut ensures no galling of body threads

## Multi -Tube and Heat Trace Tubes

- Thermoplastic-jacketed single and multiple metal/plastic tubing bundles, pre-insulated as steam and electric traced tempt raced products
- Available in both coil and straight forms

### **Exotic Tubes and Pipes**

- High quality Exotic seamless tubes and pipes
- Available in different material such as 300 series, Duplex 2205 Alloy 400, 625, 825. and many more Exotic materials.
- RaitGibson, Greenville, Control Line-USA
- 

### **Tungum Tubes**

- Tungum Ally (Aluminium, Silicon, Nickel, brass)
- Availble in High Strength and with excellent corrosion resistance and high resistance to sea water and its atmosphere
- Hastelloy C276 and other exotic materials

### **Heat Exchanger Tubes**

Universal Trading Co expended its skills to provide high proformance tubes for tough enviroments that can sustain seawater, brackish water or corrosive products with outstanding durability and reliability.

- Head Exchanger Tubes
- Boiler Tubes
- Hollow Bars
- General Tubes and Pipes

## Medium Pressure Fittings And Valves

- Medium Pressure Fittings (MPI), Medium Pressure Valves, Medium Pressure Regulators and Polyflex
- Houses for 6000-20000 PSI pressure range

## High Pressure Fittings and Valves

HIP USA offers Valves, Fitting, Tubings, Guages, Safety Devices, Pressure Vessels, Reactors, Pumping Systems Intensifiers, Gas Boosters And Pressure Generators for use at pressure upto 150000 PSI

## Phastite Tube Connections

- Reduces cost, fast and simple increase safety
- Option for welded as well as cone and thread connections
- Permenent push fit connector with working pressure upto 20000 PSI

## **Low Pressure Brass Fittings and Valves**

Compression style fittings, push to connect

- Pneumatic fittings
- Integrated fittings
- Flare fittings
- Barked Fittings

## **Flow Control Valves**

Flow control valves available in variety of materials such as Bronze, Brass, Stainless steel, Carbon Steel in various famous brands such as Apollo Valves

## **Butterfly Valves**

- Apollo USA 141/143 Series ductile iron butterfly valves offer an economical design
- Ideal for use industrial and HVAC/Mechanical application

## **Safety Relief Valves**

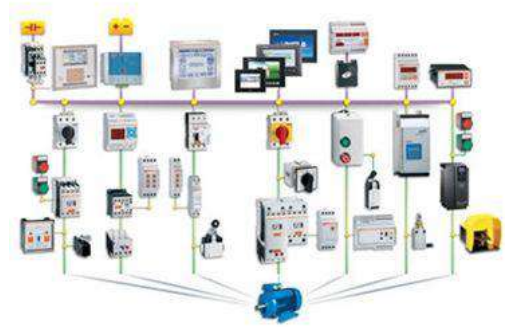

Available for industrial and commercial application in best quality brands such as Apollo USA for water, air, gas and steam

## **Automation Products**

### Ball Valves Carbon Steel and Stainless Steel

- Screwed Flanged and Water Type
- Electric and Pneumatic Actuator
- Single Acting and Double Acting
- Fully assembled and tested

## **Stainless Steel Pipe Fittings**

- Deltinox France Specialist in forged stainless steel pipe fittings, with variety of pressure classes and end connections
- Also available in Alloy steel and Exotic material

## **Carbon Steel Pipe Fittings**

Bonney Forge USA Forged Steel fittings, unions and Branchy connections available in variety of Pressure classes and Material grades for numerous application, with screwed and socket weld connections

### **Forged and Cast Steel Valves**

- Bonney Forge USA Carbon steel, alloys, stainless steel and exotic material
- Valve types include gate, globe and check with wide pressure rating

### **Shut-Off and Control Technology Germany**

- 2way ball valves, Multi-way ball valve combinations
- Ball valve for instrumentation
- Check valve
- Needle and Flow control valves

### **Piping Package**

- Line Pipes- Flanges
- Valves
- Gaskets
- Butt Weld Fittings
- Studbolts and Nuts
- Stainless Steel, Alloy and Exotic material

## Filtration Solutions

- Fuel Water Separators
- Racor high capacity
- Spin-on and Turbine fuel water separator with see-through bowl and water sensor option.
- Available in Single, Duplex and triplex models

### **Filtration Solutions Fuel Water Separators**

Racor high capacity Spin-on & Turbine fuel water separator with see-through bowl & water sensor option. Available in Single, Duplex & triplex models.

### **Separator Cartridges**

Racor offers a wide range of Pleated Paper, Teflon and synthetic media hydrocarbon separator cartridges. Available to fit most industry vessels. API qualified for jet fuels.

### **Hydrocarbon Filter Vessels**

Vessels are designed & manufactured to ASME and API/IP qualifications. Single and Duplex vessel product line for jet, Diesel, Gasoline fuel bulk storage terminals, Refineries, Airports, Power plants.

### **Diesel Fuel Filtration**

When engine demand heavy-duty, high-capacity water separation and fuel filtration, the turbine Series is the most complete, efficient and reliable engine protection you can install.

### **Coalescer Cartridges**

API-Qualified & Industrial coalescer cartridges to remove emulsified water & particulates from the fuel. Available in standard industry diameter and lengths and variety of micron ratings.

### **Racor CCV Systems**

In a robust, compact package the patented Racor CCV Closed Crankcase Ventilation Filter Systems provide superior oil coalescence and crankcase pressure control under the most severe conditions.

### Engine Air Filtration

Air intake filter ranges from economical air cleaners, pre-Heavy duty pre-cleaners for stationary engines, Off-highway vehicles, generators, compressors, etc.

### Engine Fuel, Air, Oil Filters

A wide range of retrofit Air, fuel, oil and coolant filters for many diesel engines.

### Reservoir Equipments

Offers fluid level/Temperature Gauges, Tank filler Breathers, Suction Strainers, Diffusers, Float & level Switches.

### Hydraulic / Lube Oil Filters

Wide range of low/Medium/High pressure filters up to 20,000 PSI. Tank-Top & In-line return line filters. 55316L filter housings.

### Fluid Condition Monitors

Laser Portable Contamination Monitor to quality and accurately monitor fluid cleanliness. CM 20 and LCM 20 re-calibration, service and repair services.

### Oil Purification Systems

PVS (Vacuum dehydration system) designed to effectively remove water and solid contamination from the hydraulic, lube and transformer oil systems.

### Process Air & Gas Compressed Air Filtration

High efficiency filters to remove water, oil and solid particulate from compressed air. Filters available with porting up to 16 flange and flow capacities to 63,000 m<sup>3</sup>/hr.

### Hydrogen Generators

Ultra high Hydrogen gas generators to operate analytical instrumentation and Zero-Air generators for chromatograph analyzers.

### Par-Fit Air Elements

The inherent advantage of Parker filter elements are available in a range of filter elements sized to fit other manufacture's housings, offering opportunity to upgrade to a Parker filter.

### Breathing Air Purifier

Breathing air for medical applications. Units available for flow capacities up to 850m<sup>3</sup>/hr.

### Nitrogen Generators

On-site Nitrogen generators using Membrane and Pressure Swing Adsorption technologies. Explosion-proof N<sub>2</sub> generation skid for purging, blanketing, inerting & packaging applications.

### Membrane Air Dryers

Innovative Membrane air dryer that provides clean dry with dew points down to -40 c, without any moving parts or requirement for additional power.

### Adsorption Air Dryers

Compact Heatless & Vacuum heat regenerated adsorption dryers for flow capacities up to 14,500 m<sup>3</sup>/hr. Pressure dew point down to -70c.

### Refrigeration Air Dryers

High performance Refrigeration dryers for flow capacities up to 10,800 m<sup>3</sup>/hr. Pressure dew point to +3c.

### TyreSaver

Specially designed for filling Nitrogen into car and truck tyres. Filling tyres with nitrogen can bring benefits of longer tyre life, better fuel efficiency and increased safety.

### Steam Filtration Systems

Sterile, vent and steam filters enable user to ensure that all micro-organisms are removed, for safe use of air and gases in modern process industry and medical applications.

### Process Filtration Systems

Process filtration offers wide range of pleated, depth, wound and membrane cartridges with different microns and variety of filter medias. Carbon steel and SS316 material bag / cartridge filter vessels in different sizes.

### Stainless Steel Filters

A wide variety of gas filters constructed of Stainless steel, pressure to 345 bar, temperature to 204c ideal for removing solid and large quantities of liquid from gases.

### Fluid Control

#### Ball / Plug Valves

- Ball & Plug valves with excellent temperature & pressure characteristics.

- MB Series, SWB Series, HB Series, MPB Series, PR Series, HBV Series with Pneumatic & Electric Actuators.

#### Relief Valves

- Relief Valves are preset from factory & with externally adjustable pressure settings.

- Available with manual override option.

- RL4 Series & RH4 Series & HPRV Series, - PED approved relief valves.

#### Check Valves

- Check valves are designed for Uni directional flow control of fluid & gases in Industries

- C Series, CO Series, MPC Series, MPCB Series, LC Series & Hi-Check Non return valves

#### Needle Valves

- A wide variety of leak tight shut off & regulating needle valves.

- V Series, HNV Series, SN6 Series VQ Series, NP6 Series, PV Series, U Series, RPV Series & HGV Series.

#### Filters

- Filter for protection of instrumentation systems from undesirable material such as dirt, chips, scale & other forging particles.

- P Series, FT Series, MPF Series.

#### Manifolds

- A comprehensive range of 2.3 and 5 valve manifolds for flow applications

- Available with integral PTFree connections, reducing leakpaths and installation cost

### Sample Cylinders

- Stainless Steel & Aluminium Cylinders provide safe containment for storage & transportation of both liquid & gases.

- 1800 PSI DOT rated Sample Cylinders.

### Condensate Pot / Seal Pot / Air Manifold

- Condensate POT / Seal POT is a section of pipe to provide a large - area surge surface for movement of the impulse line fluid with instrument element position change.

- Air distribution manifolds.

### Instrument Enclosures

- Instrument Enclosures and Sun shades for field instruments made of GRP in various configurations with complete mounting accessories.

### Pressure Regulators

- Pressure regulators for precise pressure control & greater sensitivity.

- For Analyser system, Gas management instrument calibration & semiconductor application.

### Quick Couplings

- Offers a full range of precision quick for use in the process, power & instrumentation fields.

- Available with different end configurations.

### Stainless Steel, PTFE & Thermoplastic Hose

- Parker Stainless steel, PTFE Hose and Thermoplastic, Parflex hose and fitting products support instrumentation process system.

- Hose assembly and testing.

## Measuring Instruments

### Pressure Measuring Instruments

- Nuovafima Italy Pressure Gauges, Electronic Pressure Transmitters, Calibration Systems, Pressure Switches & Diaphragm Seals.

- Wide range of pressure scales in liquid filled & Dry version with back & bottom connection.

### Thermowells & Sample Probes

- Texas Thermowells USA, available both in Screwed & Flanged design.

- Custom designed & fabricated based on requirement & vibration calculation

- Available in all Exotic grades.

### Pressure Gauges

### Pressure Transmitters

- Pressure Transmitter

- Differential Pressure Transmitter

- Temperature Transmitter

- Compatible to connect DCS, PLC & PC

### Temperature Measuring Instruments

- Nuovafima Italy inert gas filled thermometers, Bi-metal thermometer, Thermocouples, Resistance temperature detectors & Thermowells etc.

### Solenoid Valve

- Solenoid Valves, Pressure Regulators

- Manifolds, Namur Interface Valves

- Intrinsic Safe & Explosion Proof (Ex)

### Fluid Control

- Solenoid Valves Process Control Valves For air, water, oil & gas applications Brass & Stainless bodies

### Monoflanges

- Compact double block and bleed valves featuring needle valves

- Configurable options include single block double block and bleed

### Tube Fabrication Equipment

- High Quality Tube benders, Cutting & Deburring Tools, Par Lok wrench, Ferrule presetting tools, Rotary wrench, Tube marker, Inspection gauge & Gas gauge.

### Pro-Bloc

- Compact double block and bleed valves featuring needle or ball valve, featuring needle valves

- Configurable options include single block double block and double block and bleed

### Tube Clamps

- RSB tube clamps, Snap-Trap tube clamps, Parklump tube clamps. Tube racks & P-Clips.

- Available for Single, Double & Multi tube in Metric & Imperial sizes.

- Air distribution manifolds.

### Close Coupled Instrument Mounting System

- Close coupled solution for flow measurement applications

- Features phastfit for rapid transmitter removal and connection

### Hydraulic Adaptors

Parker adaptors have many types thread used in the fluid power industry throughout the world. Adaptors with a wide range of those thread types including NPT, NPTF, NPSM, BSPT, BSP, SAE, UN / UNF and Metric.

### Senso Control & Test Point

Parker's Senso control family of products allows you to record the pressure values taken from one or several measurement points on your machine or installation.

### Tube Fittings

### O-Ring & Seals

Today's sealing challenges demand innovative solutions and nobody knows innovative better than Parker. Material available; Fluorocarbon, Fluorosilicon, Silicon, Ethylene, Propylene, Nit rile, HNBR & Neoprene, etc...

### Tube Fittings

### FRL - Air Preparation

The Moduflex modular air preparation system is constructed out of aluminum providing the advantages of both lightweight and strength.

## Hose & Hose Fittings

### Low Pressure Hydraulic Hose

The low pressure speciality hose range offer high performance for special requirement. A wide range of different hose types in rubber is available with textile - braided or fire retardant cover.

### Medium Pressure Hydraulic Hose

Using high quality compound allow thin covers - less weight long service life still assured.

### High Pressure Hydraulic Hose

Parker as the worldwide market leader in no-skive hose technology meets these requirements by offering a full range of no-skive multispiral hoses.

### Ultra High Pressure Hose & Fittings

Ultra-high pressure service for use with petroleum or synthetic hydraulic fluids. High link resistance and high flexibility for hydraulic tools.

### Industrial Air & Water Hose

An economical and versatile general purpose hose, which is excellent for air and water services. Available color Green, Blue, Red, Black & Yellow.

### Industrial Oil Fuel Hose

Designed for heavy duty service in the transfer of petroleum products including gasoline, oil and diesel fuels.

### Industrial Material Handling Hose

- Parker has a large range of material handling hoses.

- Many applications including sandblast hoses, high pressure concrete hoses.

- Hoses for conveying food in granular or powder form.

### Industrial Food & Beverage House

- Parker meets most requirements in the food preparation industry.

- All Parker food hoses meet major international requirements.

- Air distribution manifolds.

### Quick Coupling

Parker quick coupling have a wide variety of designs, pneumatic, hydraulic & thermoplastic quick couplings.

### Cam Lock & Groove Fittings

Universal Cam & Groove coupling for aggressive fluids (according to connection) in chemical plants, medicine technique, off-shore or agriculture.

### Hose Clips & Clamps

High-performance hose clips for safe, fast and removable use on various hoses and fittings for different fluids.

### Push-in Fittings and Tubing

There distinct range of push-in pneumatic fittings.

- Prestolok micro, ultra small light weighted range

- Prestolok thermoplastic compact range

- Prestolok nickel plated brass body range

### Tube & tube Fittings

#### Hydraulic Bite Type Fitting

Parker Eo fitting is recognized for it's high pressure performance from a compact body. Eo fittings are available in the three series for low, medium and high pressure (LL, L and S-Series)

### Tube Clamps

Tube clamps or high quality having a high tensile resistance, a high as well as cold resistance. Material available polyurethane, polyimide & aluminum.

### Flare Fittings

The Triple-lok fitting system is especially applicable where high volumes of tubes are prepared.

### High Pressure Valves

Hydraulic high pressure shut-off valve available 2-way ball valve, multi-way ball valves, SAE Flange ball valve & hydraulic manifold blocks.

### Hydraulic Tube

Seamless tubes for hydraulic systems in straight length. Materials available in stainless steel carbon steel & copper.

### Hydraulic Parflange F37

The Parflange F37 flanged connector system is utilizing this orbital tube forming technology for tubing assemblies from 38 to 140 mm outside diameter. Pressure rating: available 3000psi & 6000psi.

## Repairs & Refurbishment

Our repair service has been operating since the company was first established so our staffs have acquired the knowledge and experience to repair a wide range of hydraulic products (cylinders, pumps, motors etc.). We can also carry out full refurbishment of all types of hydraulic equipment, either at our customers' premises or in our own facilities if required.

## Planned Maintenance

We offer the option of maintenance support on all power units and systems supplied by us. We can also offer scheduled maintenance plans for hydraulic equipment already installed at the customers' site - from a single power unit to a full plant production system. Our service manager will visit to assess the requirements and produce a fully detailed work plan for agreement by the customer. All work is then carried out to a high standard by our experienced engineers.

## Installation & Commissioning

As well as design and manufacture of power units and hydraulic systems, we can complete the package by installing and commissioning on site - wherever that may be. We will undertake all the hydraulic requirements of major projects including actuators, control systems and pipe work (Flexible hose or steel pipe). All are installed and tested by our skilled fitters so our customers are sure of a fully functioning system.

# TOOLS

Universal Trading Company successfully working as an Industrial tool traders in Pakistan. We deals in all range of tools used in industry of Pakistan. We are known for our quality products and agile services since 1996. We are stockist of famous tool brands such as BOSI, DELTA and DeWalt. We have large stock of chinese origin brand as well.

*Clamping Tools*

*Cutting Tools*

*Dressing Tools*

*Electronic Tools*

*Garden Tools*

*Fastening Tools*

*Group Set Tools*

*Measuring Tools*

*Percussion Tools*

*Safety Protection Tools*

*Socket Tools*

*Steam tools*

*Tools Car-Box*

*Welding Tools*

*Wrench Tools*

## PARTNERS/LOGO
